

More than 36 students have completed scholarly research or creative projects with faculty mentors since the Dorothy Goodwin Scholars Program was established in 2006.

Through the program, I have the opportunity to make my passion project into a reality. Being involved has prepared me professionally in how I present myself and my portfolio; any woman who wants to propel herself in her professional field will find The Women's Advancement Initiative is the place to do it. Working with my mentor has taught me so much beyond the scope of my project, and I believe that mentorship and confidence is what makes this program so valuable.
