FINANCIAL AID
Domestic Financial Aid
Financial assistance for graduate and professional students through the University of Hartford’s Office of Admission and Student Financial Assistance is limited to the Federal Family Education Loan and supplemental loan programs. There are no grants-in-aid or scholarships.

For the federal or supplemental loan programs, you must meet all eligibility requirements as established by the U.S. Department of Education. They are:

1. Be matriculated into a graduate degree-granting program.
2. Be registered for at least six credits per semester. (The Barney School academic year includes fall, spring, and Summer term. Summer term contains six-week sessions and you may satisfy the six credit requirement in Summer term by taking six credits during one session or by taking three credits each session.)
3. File the Free Application for Federal Student Aid (FAFSA) for the academic year and meet all eligibility requirements established by the U.S. Department of Education.

For more information, call 800.947.4303 or email finaid@hartford.edu

International Financial Aid
Financial Aid for international graduate students is currently limited to Graduate Assistantships. Assistantships are administered by individual departments throughout the University and vary in amount and availability. They are only available after you have been accepted, are here on campus, and have registered for classes.

Assistantships and Fellowships
You are encouraged to contact the Barney School’s Academic Services office once you are here to begin classes. Please note that assistantships, fellowships, or other financial support may impact your Federal Stafford Loan eligibility.

WE ARE AACSB ACCREDITED
The Barney School of Business is internationally accredited by AACSB International—Association to Advance Collegiate Schools of Business. This means you can be assured the Barney School has the highest quality faculty, relevant and challenging curriculum, and provides educational and career opportunities that are not found at business schools without this accreditation. Less than 5% of the world’s 13,000 business programs have earned AACSB Accreditation. AACSB-accredited schools produce graduates that are highly skilled and more desirable to employers than non-accredited business schools.
