OVERVIEW

The Accelerated MBA (AMBA) program is designed for mid-and upper-level managers from the public, private, and nonprofit sectors. Its accelerated format allows executives to complete the graduate degree in 20 months, while remaining in their careers full time. In the AMBA program, students will develop a conceptual understanding of economic and management theory and be able to apply that theory successfully. Courses are based in a student-focused learning environment that emphasizes effective, high-quality teaching and learning. By maintaining strong relationships with regional business, government, and non-profit entities our students and faculty can witness firsthand the current application of management tools and techniques.

The AMBA program is completed as a cohort program with classes on Thursday evening and all day Saturday approximately every other weekend for 20 months.
