Choose the right plan for you with the custom Plan Cost Estimator from UnitedHealthcare

It’s time to select your health plan. Are you wondering which plan is right for you, given your unique health care and financial needs? The custom Plan Cost Estimator gives you the information you need to make the best decision. It’s easy, online and personalized just for you.

Introducing the custom Plan Cost Estimator

• Compare cost differences between your employer’s plans and a spouse’s or domestic partner’s plan choices.
• Get detailed comparisons for premiums, out-of-pocket costs, per-paycheck contributions and more.
• Determine how much money to set aside for flexible spending and/or health savings accounts.

You don’t need to enter any health plan details – they are already part of your custom Plan Cost Estimator.

Follow these three easy steps today

Step 1: Enter the family members who will be covered.

Enter basic details about yourself, your family members and dependents, including employment and demographic details.
Step 2: Specify health care use for each family member.

Enter your yearly health care usage estimate for all your covered family members.

Specify low, medium or high health care usage
- Your estimate will reflect a list of pre-defined health services

Optional “additional usage estimate”

Conditions
- Prescriptions • Medical equipment

Step 3: View and compare plan cost estimates

View your health care plan expenses and estimates.
- Compare premiums, health care usage costs, employer contributions
- Calculate and optimize health savings and/or flexible spending account contributions and tax savings
- Compare annual plan costs and per-paycheck contributions
- Print estimates, download plan summaries or add your own plan estimate
