Online Bulletin

Start at the University’s main web page

In the Search box, type "Bulletin"

Click on the first link (Undergraduate Bulletin).

Note: this will take you to where you can choose either the Undergrad or Grad bulletins.

Undergraduate Bulletin

The new, all-online 2012-13 undergraduate bulletin is available for viewing.

Official Undergraduate Bulletin for the University of Hartford

In the Bulletin the word program refers to an academic program (majors, minors, and special programs). Programmatic expectations are those in effect at the time of admission to degree candidacy, and college and major requirements are those in effect at the time of entry into college and major.

Undergraduate and Graduate Bulletins are published separately. All colleges of the University are included in the Undergraduate Bulletin; only those colleges offering graduate degrees are listed in the Graduate Bulletin.
There are multiple ways to access the information you seek.

To access the College of Arts and Sciences' pages, click the A&S link on the side.

**College of Arts and Sciences**

The College of Arts and Sciences is the University’s central and largest college. Through its instruction in the humanities, sciences, and social sciences, the College of Arts and Sciences seeks to foster respect for excellence, tolerance of others, dedication to fairness and social justice, precision in speech and thought, and development of intellect.

It does so through a mixture of traditional and innovative programs. Particularly noteworthy are the developing interdisciplinary programs that cut across traditional boundaries and focus on emerging social need and issues in reading and writing, literature, the environment, internationalization, media, communication, and technology.

The college’s 18 departments and School of Communication provide specialized training and advanced work leading to the B.A., the B.S., the A.S., and the A.A. degrees. Details regarding programs of study and majors are available using the above links. The mastery of a major area of concentration prepares students for careers, for continuing their studies independently, and for undertaking graduate study and research.

**Departments** will send you to the departmental information - all courses offered, faculty listing and links to all the programs offered (major, minor and certificate).

**Programs of Study** lists all the programs listed in Arts and Sciences (major, minor, certificate and gen ed).

**General Education Requirements** list the gen eds required for A&S degrees.

**Courses** lists all the courses offered by Arts and Sciences.
