Introduction

The Banner® Student Self-Service 8.7.2 Release Guide provides an overview of the enhancements available in this release and tells you where you can find a detailed list of the defects fixed in this release.

Test score enhancements

Enhancements were made to the way that test scores are recorded in Banner.

Ability to store test scores up to 15 characters

The length of the Test Score field was changed from 5 to 15 characters in all relevant forms, tables, processes and Self-Service pages.

Number of characters in a test score made flexible up to 15 characters

The number of characters you enter for a test score is now flexible.

Previously, if the number of positions for the maximum length of a test score was 4, then the score must always be entered as 4 characters. Now, the score can be entered as a value up to and including the maximum value.

If the Test Score Code values are: Number of Positions = 4, Minimum = 0400,
Maximum = 1600

Previously, to enter a score of 600, you would need to enter it as 0600.

Now, you can enter it as 600.

Test code field extended

The length of the test code field was changed from 4 to 6 characters in all relevant forms, tables, processes and Self Service pages.
