

Specialty Drug coverage reviews

Specialty drugs requiring prior authorization
2019 Aetna Standard plan

aetna[®]

The drugs on this list require prior authorization* review under the Aetna Standard plan. If you have a medical need for one of these drugs, your doctor can ask for an exception.

***Prior authorization** (also called preauthorization):
Your doctor needs to get our approval ahead of time before we cover certain drugs.

Medications on the drug coverage review lists are subject to change and may not be all-inclusive. For example, safety edits and specialty medications may require prior authorization and may be found on a separate list. Specific prescription plan designs may not cover certain categories or may be subject to additional restrictions, regardless of their appearance in this document.

Prior authorization and step therapy programs are subject to state law restrictions and may not apply in all areas or for all plans. Step therapy does not apply to fully insured members in New Jersey. However, these programs are available to self-funded plans.

This document contains references to brand-name prescription drugs that are trademarks or registered trademarks of pharmaceutical manufacturers that are not affiliated with Aetna pharmacy. Listed products are for informational purposes only and are not intended to replace the clinical judgment of the prescriber.

Aetna Pharmacy Management refers to an internal business unit of Aetna Health Management, LLC.

Information is believed to be accurate as of the production date; however, it is subject to change. If you have questions, see your plan materials or call Member Services
