Mission: The purpose of the Barney Leadership Council (BLC) is to create a community of students engaged in service to the school who are empowered to take an active role in supporting the mission of the Barney School of Business. Membership in the council will provide students with the necessary skills and experience to be successful leaders through opportunities such as workshops to develop leadership skills, occasions to practice networking, and exposure to area leaders and speakers. Members will have opportunities to take on leadership roles within the college and council by developing and directing projects that support the mission of the school. As a community, students will support the development of shared values, gain insight on the importance of relationship building and influencing colleagues, and promote continuous improvement in the activities of the council.
