To apply for a position within our organization, you need to take an online questionnaire through the Civil Service website. Please visit the New York State Career Opportunities in Engineering website at: [https://www.cs.ny.gov/engineering/oc/](https://www.cs.ny.gov/engineering/oc/).

About halfway down the page, you will see a section on Exam Announcements for each of the three engineer titles: Engineer Trainee, Assistant Engineer, and Professional Engineer 1.

**Examination Announcements**

Carefully read the entire examination announcement for information about minimum qualifications for each engineer specialty. You may apply to as many engineering levels and specialties that you qualify for. Each online questionnaire will be submitted for the level, specialty, and agency you select during the application process.

Please review these exam announcements to see the minimum qualifications for each before beginning the questionnaire/exam. Once you have determined which title(s) you are eligible for, go to the “How To Apply” section shown below.

**How To Apply**

You will need an NY.gov ID to apply for this examination(s). If you do not have an NY.gov ID, please create an account.

Before starting the application process, you will need to create a personal NY.gov account. Click on the “create an account” link and follow the instructions. Once you have created an account you can click on the “Start Application Process” to complete the application process and take the questionnaire/exam. When completing step 1 of the application process, be sure to select titles with the **(Civil/Transportation)** specialty area. This is the specialty area that NYSDOT hires from. For the Geographic Canvass, please select all counties that you would be willing to work in. A map with all the NYSDOT regions is in the enclosed brochure. Please take time to read each question carefully and thoroughly while taking the questionnaire/exam, as you can only reapply every 6 months.
