Radiologic Technology Program Program Effectiveness Data 2014 - 2018

To assess the overall effectiveness of our Radiologic Technology program, the following data is collected and analyzed on an annual basis:

1. Program Completion Rate

This is the percentage of students who complete all academic and clinical requirements of the program. RAD program requirements are typically fulfilled at the end of the third (junior) year.

| Year | Percentage | Benchmark | Additional Details |
|---------|------------|-----------|---|
| 2014 | 81% | 75% | 17 of 21 students completed the program. |
| 2015 | 90% | 75% | 19 of 21 students completed the program. |
| 2016 | 100% | 75% | 21 of 21 students completed the program. |
| 2017 | 95% | 75% | 20 of 21 students completed the program. |
| 2018 | 91% | 75% | 21 of 23 students completed the program. |
| Average | 92% | 75% | 98 of 107 students completed the program. |

2. Credentialing Exam Pass Rate

Our program helps prepare students for the Radiography certification exam offered by the American Registry of Radiologic Technologists (ARRT). This pass rate indicates the number of successful examinees who earn their ARRT credential in Radiography (R) on their first attempt, within the 6-months immediately following RAD program completion.

| Year | Percentage | Benchmark | Additional Details |
|---------|------------|-----------|---|
| 2014 | 64% | 75% | 9 of 14 students passed the ARRT exam. |
| 2015 | 94% | 75% | 15 of 16 students passed the ARRT exam. |
| 2016 | 90% | 75% | 18 of 20 students passed the ARRT exam. |
| 2017 | 95% | 75% | 18 of 19 students passed the ARRT exam. |
| 2018 | 90% | 75% | 19 of 21 students passed the ARRT exam. |
| Average | 88% | 75% | 79 of 90 students passed the ARRT exam. |

3. Graduate Job Placement Rate

This indicates the percentage of program graduates who find employment within 12-months of University graduation. Our students typically graduate from the University one full-year following the completion of the RAD program. The data below applies only to students who were actively seeking employment in medical imaging, and does not include students who chose not to seek employment, pursued graduate study or other advanced education, etc.

| Year | Percentage | Benchmark | Additional Details |
|---------|------------|-----------|---|
| 2014 | 92% | 75% | 11 of 12 students employed within a year. |
| 2015 | 100% | 75% | 18 of 18 students employed within a year. |
| 2016 | 94% | 75% | 15 of 16 students employed within a year. |
| 2017 | 100% | 75% | 20 of 20 students employed within a year. |
| 2018 | 100% | 75% | 17 of 17 students employed within a year. |
| Average | 98% | 75% | 81 of 83 students employed within a year. |
