DPT Health requirements differ from those of the University of Hartford Health Services. Below is a table to help you understand how to navigate the complete DPT Program health and on-boarding process. Please note that the physical, flu vaccination, Tuberculosis testing, and health insurance must be updated annually*.

MMR vaccine	2 doses or + titer showing immunity
Varicella (chicken pox) vaccine	2 doses or + titer showing immunity (history of disease is not accepted)
Hepatitis B	Vaccine series (3) or + titer showing immunity
Tetanus	Proof of booster within 10 years
Physical	Annual*
Flu shot	Annual* (deadline by mid-Oct of each year)
Tuberculin/PPD test 1 step	Annual* If positive – need chest x-ray/blood test; 2 step may be required based on specific clinical site
Proof of Health insurance	Annual* - if it changes
Criminal Background Check	Entrance into DPT program at minimum
10 Panel Drug screen	Entrance into DPT program at minimum
HIPAA and OSHA training	Completed during DPT program
CPR/AED certification	Completed during spring of Year 1 and must remain valid during remaining DPT program
