**Messages**

If your instructor has it enabled, **Messages** is a feature that provides each course with a private and secure system for communication that functions similar to email. Not all instructors use the **Messages** function, so you may want to check with your instructor before using this feature to send messages. **NOTE:** Messages cannot be sent to or received from users outside the course.

**Roster**

Use the search function to list the students in your course.
Groups
If your instructor is using groups, you can access your group through the Tools page. Your group name will appear as a link. Only students assigned to a particular group may access that group’s page.
