

Bruce Forsyth's email

Hi Hem,

I hope you are doing well. We missed you at the recent Transformers Committee meeting.

I am reaching out to let you know that at the Awards Luncheon on March 29, 2022 you were one of three recipients of a Transformers Committee Outstanding Service Award for longstanding commitment and participation in Committee activities. More specifically, you are one of three participants who have been a member or officer of 35 or more standards development activities (task force, working group, or subcommittee) based on the data recorded in our AMS. To put your accomplishment in perspective, about 93% of those who have been a member or officer have participated in 20 or fewer activities. The three awardees who have participated in 35 or more activities represent about 0.3% of the active participants. On behalf of the Transformers Committee I want to congratulate you on this significant achievement.

This award comes with an engraved plaque. Unfortunately because the Awards Chair is role is new to me I failed to get the plaques ordered before the meeting. As such I will have the plaque mailed directly to you. Can you provide me with the address to which you would like the plaque mailed?

Congratulations & Best Regards,

Bruce Forsyth, PE
